

# BIARI Brown International Advanced Research Institutes- Brown University

The BIARI brings together young faculty and professionals from around the world to address pressing global issues through innovative research and pedagogy contributing to building the next generation of transnational academic community.

**PROGRAM DATES:** JUNE 9-23, 2012

**AREAS OF FOCUS:** Global Health and HIV/AIDS, Theater and Civil Society, Population and Development, Climate Change and its impacts.

**APPLY NOW:**

[http://brown.edu/Administration/International\\_Affairs/initiative/index.html](http://brown.edu/Administration/International_Affairs/initiative/index.html)

Review of applications begins JANUARY 4<sup>TH</sup>, 2012

## PROGRAM OBJECTIVES

### • CUTTING EDGE RESEARCH

Through this participatory, rigorous, and interdisciplinary program, participants have the opportunity to share their own work and develop new collaborations with peers and leading figures in their fields of interest.

### • GLOBAL EXCHANGE

BIARI convenes scholars and practitioners from all parts of the world, and challenges conventional hierarchies of knowledge. A key program goal is to foster south-south exchange, and to provide support for rising scholars' voices in the global academic conversation.

### • SUSTAINABLE NETWORK-BUILDING

BIARI is a highly selective, residential program. Institute participants have ample opportunity to interact with colleagues and explore Brown University's world-class campus and facilities. BIARI Alumni continue to build on and expand these relationships in long-term research, teaching, and outreach collaborations. Alumni are invited to apply for seed funding for collaborative projects that are outgrowths of Institute initiatives.
